The city is more strictly interpreting what constitutes the good faith efforts of bidders for city projects with M/WBE participation goals.

This workshop will explain the changes in policies and procedures so that you are in the best position to win contracts and gain M/WBE participation. Attendees will receive a certificate, good for two years, which can be used on future bids to fulfill one of the ways to document a responsive bid.

Contractors are encouraged to bring at least two representatives to the workshop.
