

Forsyth County Planimetrics RFP Addendum - Responses to Vendor Questions.

- 1) *Is the due date March 9th or March 5th?*
 - a) **The due date for final vendor responses is March 9th.**

- 2) *Are shapefiles of the coverage area available for download?*
 - a) **Yes. The download link is:**

ftp://ftp.forsyth.cc/pub/uploads/GIS/Planimetric_RFP_Shapefiles/

- 3) *Is there a desired timeline to complete the project?*
 - a) **One Year**

- 4) *In the section 3.4 Questions for the Vendor, question 9 "How do you determine buildings sharing a common way in downtown areas?" Can you please give us some more detail on what you are looking for?*
 - a) **In downtown areas with high rise buildings, building shadows can overlap onto other buildings, how do you determine where the building is located with the shadow**

- 5) *Can you please confirm that paved parking area is to be delivered as line and unpaved parking as polygon? (Section 3.5.1.1.0 Planimetric Layer)*
 - a) **Correction - Both should be polygons**

- 6) *Major Cross County pole is listed to be delivered as polygon. Can you please confirm? (Section 3.5.1.1.3 Utilities Layer)*
 - a) **Correction - Major Cross County Pole should be delivered as points.**

- 7) *We noticed that single tree point was not listed as a feature to collect. What's the minimum capture size for woodland boundary? (Section 3.5.1.1.4 Vegetation Layer)*
 - a) **Areas of in excess of .25 acres to be captured.**

- 8) *DTM and contours/spots were mentioned in the Delivery section 3.5.3, but are not listed in the Cost Worksheet. Please confirm whether DTM and contours/spots are part of the project scope. (Section 3.5.3 & Appendix D)*
 - a) **DTM and Contours/spots are not part of this project, they will be delivered to the County from the NC LiDAR Floodplain Mapping Project.**

- 9) *On page 13 of the RFP (Section 3.4) you list nine "Questions for the Vendor." Where should answers to these questions be placed within your proposal format?*
 - a) **After Company Profile, prior to References**

- 10) *Page 21, section 4. The response format indicates a) Cover letter b) Company profile d) References - is the Cost Section to 4.1.4 to be included in this as well?*
 - a) **Yes**

11) Page 24, Appendix B. Does Appendix B and Appendix C both go under the References section of the response format?

a) **Correction - Appendix B should be included within the Company Profile and Appendix C is References only (section 4.1.3)**

12) Please clarify the use of the term 3-D in planimetric database. Is it the intent of MapForsythg to have a full 3-D database with all features including Z information for the entire feature. Or is it the intent to have a 2.5-D deliverable with Z linework captured with an elevation 0 and attributes will be used to carry the height of a roof as an example.

a) **3-D (Section 1 Introduction)**

13) Page 14, Section 3.5.1.0 Planimetric Layer. Will MapForsyth offer an empty template geodatabase or is MapForsyth expecting the Vendor to create a Geodatabase meeting the requirements of the 3.5.1.1.0 planimetric layer table.

a) **Vendor will provide geodatabase meeting the requirements of 3.5.1.1.0**

14) Page 20, Section 3.5.3 Delivery. Topographic Layers. - Is the NC LiDAR data available for use to create the 1' contour layer?

a) **Yes, Contact Hope Morgan at Hope.Morgan@ncdps.gov, however this RFP is not requiring contours (see question 8)**

15) Page 22, License for PLS. Is an office in the State required to respond?

a) **Answer NC State Requirement - Must be sealed by a PLS registered in NC**

16) Can you indicate the resolution of the NPM18 image coverage of the project areas? We are assuming 0.25' and or 0.5.

a) **0.5**
