Submittal Due Date Change / Additional Requirement

PLEASE NOTE - The required submittal due date has been changed to:

****SUBMITTAL DUE DATE CHANGE**
2:00 PM, Tuesday, April 2, 2019**

Question Period end date has been extended to 5:00 PM, Tuesday, March 26, 2019

Please see the following additional requirement to the original LOI/SOQ

The American Water Infrastructure Act (AWIA) of 2018 requires water utilities to perform risk assessments and subsequent updates to their emergency response plans based on those risk assessments. As part of the development of the Master Plan, the City of Winston-Salem/Forsyth County Utilities will require the successful firm to perform the associated risk assessments as required by the AWIA, and facilitate the coordination of updates to the water departments emergency action plans. This facilitation will include review of existing plans, consolidation of plans into a single document and associated coordination with local responders.
