**BID CLARIFICATIONS**

---

---

The following clarifications are hereby made regarding this contract:

1. The BID DATE is hereby moved to November 20, 2018 as noted above. If 3 bids are not received, the City will immediately re-advertise for the following week.
2. There was short notice for the pre-bid; therefore, a 2nd pre-bid is set for **2:00 pm, November 13, 2018** in Room 16 City Hall. The End of Question period is 5:00 pm, November 14.
3. The intent of this contract is to have a full-time contractor working daily/weekly on the City's backlog of outdated services list. Emergency work orders from broken or non-working service lines (the City has a separate meter contract) are also a part of this contract as described in the Specifications. It is desired that the Contractor have a crew dedicated to this contract perpetually.
4. The Bid quantities represent a realistic 12-month contract as a basis for establishing unit pricing. More work is available if the Contractor has the manpower! This annual contract only represents 1.5% of the City's water service connections.
5. In 2019, the City will begin a three year AMI conversion.
